

Aruba Cloud at Smau London 2018: three days dedicated to Aruba's cloud services and program for IT startupper

Aruba Cloud will introduce its range of cloud services, including VPS, Private and hybrid solutions and special initiatives as 'We START you UP' the program to support startupper who are interested in cloud solutions

London, 18 April 2018 – Aruba Cloud (www.arubacloud.com) of the Aruba Group (www.aruba.it), among the leading cloud providers in Europe, will participate at [Smau London 2018](#), the international Smau that will take place on 2nd, 3rd, 4th May 2018, starting with a networking event in the Italian Embassy and going on with panels and matchmaking moments with visitors.

It will be the right place to meet other companies, IT operators and all the innovators that could bring added value to both the Italian and UK excellences, from big companies to the young ones and startup ecosystem. Among all the pitching sessions with representatives of the Italian and British innovation ecosystem, Aruba Cloud will be involved in a panel dedicated to *'Smart manufacturing: innovative solutions for the new industrial revolution'*.

This participation will focus on the presentation of a full range of cloud services at IaaS level as Cloud Backup, Cloud Object Storage, Cloud Monitoring, VPS, Cloud PRO and more complex and customised solutions as Private and Hybrid Cloud. Those services available through Aruba's proprietary and partner data centres located in Europe, which includes France, Poland, Germany, the Czech Republic, Hungary and the United Kingdom. The whole cloud infrastructure is based on VMware's hypervisor, one of the best technology and enterprise software that in this way is also accessible to SMB and SOHO.

Smau London will also be an opportunity to focus on the programme dedicated to all the startupper who need cloud infrastructure, support, training and any kind of technological information in order to boost their business: the programme is named **'We START you UP'** and allows the startups to receive **up to € 50,000 free credit**, constant support and tips to promote each business.

Aruba and Smau started their collaboration lot of years ago, beginning from the Italian overview which has always involved IT innovators, corporates and relevant stakeholders: those aspects have been able to create the right network of people and resources who share the same values based on innovation, technology and state-of-the-art infrastructure.
